

## PHGN326 Adv. Lab. II Thursday Sections Schedule (Volk 222)

| Meeting Day<br>(8:00-11:30; 12:30-16:00) | Task                            | Groups                                      |
|--|---------------------------------|---|
| Jan 19                                   | Intro Lectures                  | All Thursday Groups                         |
| Jan 26                                   | Scintillation Detectors (Lab 1) | R-1 – R-7                                   |
| Feb 2                                    | Scintillation Detectors (Lab 1) | R-8 – R-15                                  |
| Feb 9                                    | Attenuation (Lab 2)             | R-1 – R-7                                   |
| Feb 16                                   | Attenuation (Lab 2)             | R-8 – R-15                                  |
| Feb 23                                   | Activation Experiments          | R-1 – R-7                                   |
| Mar 2                                    | Activation Experiments          | R-8 – R-15                                  |
| Mar 9                                    | Coincidence Experiments         | Morning: R-1 – R-5<br>Afternoon: R-6 – R-10 |
| Mar 16                                   | Coincidence Experiments         | Morning: R-11 – R-15                        |
| Mar 23                                   | Off                             |   |
| Mar 28                                   | Spring Break                    |   |
| Apr 6                                    | Complex Experiments             | R-1 – R-5                                   |
| Apr 13                                   | Complex Experiments             | R6-R10                                      |
| Apr 20                                   | Complex Experiments             | R-11 – R-15                                 |

**Laboratory Reports are due 1 week after the laboratory. Lab 1 report can be redone 1 time based on the feedback received.**
